Hawler Medical University - College of Pharmacy Library List of Theses in the Library

N.	Thesis title
	Evaluation of Seminal fluid analysis pre and post varicocelectomy
	Compressive strength and dimension all changes of several Gupsum produets dried by microwave
2	oven with different times
3	The out come of urgent peritoneal dialysis at dialysis unit in Erbil teaching hospital
	Evaluation of hydrocele in erbil city
	Statistical reviw of BREAST MASSES in Rizgary Teaching Hospital in Erbil
	Operative Theatre swabs and disinfection
7	Prevalence f suspected acute appendicitis in Causality hospital-Erbilduring the period
	Out line on the supracondylarextension fracture of humerus in children
	Astatistical review of pilonidal diseases in Erbil
10	Gestational age change in the human chorionic vessels, A Quan titative histological study
	Age changes of kidneys dimensions in Erbil population by ultrasound
	Astudy on the mechanism of pregnancy induced hpertension
13	The prevalence and severity of period dontal diseases among pregnant woen in Erbil city
14	Statistical reviw of Ingunal hernias in Erbil city
15	Epidemiological survey of smoking habits Among salahadine university students
	Incidence of Anterior Abdominal wall Haernias in Erbil city
17	Histopathological study of Goit in Erbil province
18	Vaginal vcandidiasis in Erbil City predisposing factors and serological studies
	some chemical studies on the Dyeing of Iraqi wool
	Epidemiology of Cholera with special References to preventive and control Measurance of The
20	Outbreaks (1998-1999) in Erbil
21	Success rate of vaginal brith after one caesarean section in Erbil Maternity and Pediatric hospital.
22	predisposing factors of pus Discharginc Acute supprative otitis Media
23	Hypertension in chro0nic renal failure
	Prevalence of wound infection post cesarean section in pateinte at maternity and chilhood hospital
24	/Erbil
25	Trans Abdominal ultra sound evaluation of ovarian cysts in reproductive age group females
	aetiological evaluation of neonatal hyperbilirubinemia
	Evaluation of epistaxis in Erbil
28	Causes of conductive Hearing loss in Erbil City
	Aetiology of bloody Diarrhea among children admitted to maternity and children's hospital
30	Acompartive study between conventional and Digital Radiography
	The pharmacological studies of procyAnidine isolated from cratagus Azarolus(Iraqi endogenous)
	General review of sensorineural Daefness in Erbil City
	Sonographic evaluation of the scrotum in Erbil Province
34	Valubility of preoperative chest Radiography

	Genetic and histological effects of metronidazol, ethazol and their interaction in albino mice mus
35	musculus
36	Pregnancy at risk in Erbil matenit and pediatrice hospital
	Screening for otitis media with effusion and its effect on school preformance in primary school
37	children
38	Ectopic pregnency risk factors and management options in maternity and pediatric hospital in Erbil
39	Biochemical studies on serum phosphatases and transaminases in hyperthyroidism
	Determination of the normal hearing threshold for Iraq-Kurdistan population
41	Anthropometric measurements of full term babies delivered in Erbil maternity and children hospital
	Presentation of 71 cases of supected acute mening it is in children
72	
43	Dilatation with intermittent self catheterization in treating male urethral strictures in Erbil
	Sonographic evaluation of acute cholecystits
	Astudy on preterm infants in Erbil governorate
	Clinical and doppler evaluation of lower limb deep venous thrombosis
47	Surveillance of antenatal care problems in Erbil city
	Some biochemical and thermodynamic studies on serum creatine kinase enzyme inobesity
49	Assessment of ultrasonic signs of acute pain in right itiac fossa
	Prevalence of intestinal parasitic nfection in primary school children in Erbil city
51	Batch and flow-injection spectrophotometric determination of methyl acetate
	Effect of parboiling process on physiochemical properties of some locally rice varieties cultivars
53	Distribution of pterygium in Erbile population a prespective study
54	Sociodemogaphic study of major deperessive disorderin
	Comparison between the role of history, clinical examination and laboratory findings in patients
55	undergoing tonsillectomy in Erbil govenorate
56	Iron deficiancy anemia in reproductive females in Erbil governorate , Kurdistan region Iraq
	Out comes of hundred patient with end stage renal renal disease atdialysis unit in Erbil-teaching
57	hospital
58	Changes in Alpha - L fucose and related parameters level in leakemia
	The significan of presntinc electrocardiogram and fibrinolytic the rapy in predictinc in-hospital-out
59	come after acute myocardial infarction
	The etiology and predisposing of chronic pharyngitis
	Evalution of patients with end stage renal disease in pre and post dialysis states at dialysis of Erbil-
61	teaching hospital
62	Microbiological study on chronic suppurative otitis media inrizgary teaching hospital in Erbil city
	Ultrasonographic evalution of diabetic retinopathy
	Clinical evalution of epiphora in children
65	Eviron mental contamination and nosocomial infections at three major hospitals in Erbil city
05	
66	Risk factors, subtypes and clinical outcome of patients with acute stronke admitted to Erbil teaching
	hospital from 1st june 2003 to 1st feb 2004
67	Ultra sound evaluation of polycystic ovarian disease in Erbil
66	
68	The Incidence of sensori-neural hearing loss in patients with diabetes mellitus

	Evaluation of cases with repture uterus in maternity and paediatric hospital in Erbil city
70	Indications for cesarean section in Erbil maternity
71	Assessment of the knowledge and practice of woman with toxoplasmosis in Erbil city
/1	The relationship between calcium , magnesium and Inorgnic phosphate of human mixed saliva and
72	dental caries
72	Screening of hepatitis bsurface antigen (HBsAg) among certain risk groups and general population in
73	Erbil city
	Assessment of mother's hoe management towards a child with diarrhea under 5 years in Erbil
74	goveronate
75	thesis colle's fractures a study of occurrence and treatment
76	Amblyopia in primary schols a prospective study
77	Placental praevia : risk factors maternal and fetal outcome in Erbil maternitty and paediatric hospital
78	Assessment of infection control proess at hemodilysis and peritoneal dialysis units in kurdistan region
79	Evaluation of cases with multipl pregnancy in Erbil maternity and paediatric Hospital
	assessment of the pergnancy induced hypertnson up on pernat women and their pergnancy out
80	come in erbil city
	assessment of pergnant women's knowwlege regardind rhesus in compatibility and its impact up on
	pergnant out come
82	pervalence of skin diseases amng primary school childrin in erbil city
07	molecular constinctudies of basterial specie isolated from patients with diarrhea
83	molecular genetic studies of bacterial specis isolated from patients with diarrhea
84	perscriptions containing antihypertensive drugs with potential drug interaction
-0	
	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources
	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical
85	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources
85	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various
85 86	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various
85 86 87	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate
85 86 87 88	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise
85 86 87 88	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease
85 86 87 88 89	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and
85 86 87 88 89	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease
85 86 87 88 89 90	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints
85 86 87 88 89 90 91	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile
85 86 87 88 89 90 91 92	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds
85 86 87 88 89 90 91 92	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile
85 86 87 88 89 90 91 92 93	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients.
85 86 87 88 89 90 91 92 93 93	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia
85 86 87 88 89 90 91 92 93 93 94 95	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia partial hellp syndrome:maternal and perinatal outcome
85 86 87 88 89 90 91 92 93 93 94 95	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia partial hellp syndrome:maternal and perinatal outcome epidemiology of breast cancer among females in erbil
85 86 87 88 89 90 91 92 93 92 93 94 95 96	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia partial hellp syndrome:maternal and perinatal outcome epidemiology of breast cancer among females in erbil value of MRI examination in comparision to clinical diagnosis in acute injury of knee joint with
85 86 87 88 89 90 91 92 93 91 92 93 93 94 95 96 97	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia partial hellp syndrome:maternal and perinatal outcome epidemiology of breast cancer among females in erbil value of MRI examination in comparision to clinical diagnosis in acute injury of knee joint with normal knee radiograph
85 86 87 88 89 90 91 92 93 91 92 93 93 94 95 96 97	bacteriological and plamid DNA content studies in proteus mirabilis isolates from different clinical sources diagnostic and molecular geneticstudies on the bacteria staphylococcus spp.isolated from various clinical specimens astudy on iron status in patients with ischemic heart disease in sulaymani governorate oral versus vaginial mis oprostol for termination of second and third trimester fetal demise significanse of right side ECG in ischemic heart disease the effect of atenonol and hydrochlorothiazide with amiloride on serum lipid profile and malondialdehyde in hypertensive pateints hepatitis C virus infection in erbil province; prevalence, diabetogenic role, and ALT activity profile frecuency of the ABH blood group antigen secrtors among kurds bacteria involved in diabetic foot infection in patients. role of the brain renin-anglotensin system in the pressor response to central hypernatremia partial hellp syndrome:maternal and perinatal outcome epidemiology of breast cancer among females in erbil value of MRI examination in comparision to clinical diagnosis in acute injury of knee joint with

100	causes of death in coronary care units in erbil city hospitals
	value of local corticosteroid injection in comparison to NS AIDS in conservative treatment of tennis
101	elbow (lateral epicondylitis)
102	phytochemical investigation of plant ago ovataforsk seeds growing in iraq
103	allergic rhinitis and assoclated problems
	acompartive study between plain X-ray (occipitomental view)and CT-scan in evaluation of chronic
104	sinusitis
105	effects of vitamine on chemotherapy induced oxidative stress and immunoglobins in acute leukemia
	aclinical study on patients underwent bone marrow examination in hawler hospitals (indications -
106	outcome-pmplications)
107	Rationale and cost of antilotics used among Inpatients in medical wards of hawlerteaching hospitals
	management of acute otitis externa
109	clinical and bacteriological evaluation of chronic supporative otitis medla [atticoantral]
	chest trauma in hawler governorate
111	development of s astable pharmaceutical formulation for mulation for probitic bacteria as pellets
112	the effects of tempreture on same quality control tests for amlodipine besylate tobets
	synthesis of anew polimer from azido polysaccharide as a possible excipient in pharmaceutical
113	products
	synthesis of anew regular aminopoly saccharide as a condidate matrix component in pharmacetica
114	product
	the effect of glibenclamideon serum malondialdehyde and some liver function tests in type 2
115	diabetic patients
116	the impact of carbohydrate introlerance on the health of children under 2 years of age in erbil city
	diabetes mellitus with pregnancy and fetal outcome
	the pattern of acne in patients attending the department of derm atology and venerology at rizgary
118	teaching hospital in erbil
	the incidence of bladder cancer in patients above thirty years presented with hematturin rizgary
119	teaching hospital
120	phytochemical and bioactivity studies of the iraqi rheum ribes root grown wildly in kurdistan region
121	prevalence of anti-phospholpid antibodines among B-thalassemia major patients in hawler province
	chest X-ray in suspected pneumonia in pediatrices clinico-radiological study
123	the effect of maternal height-birth weight on the mode of delivery and fetal outcome
124	
	the influence of exercise training on body mass index, lipid and lipoprotien profiles
	the influence of exercise training on body mass index,lipid and lipoprotien profiles The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro
125	the influence of exercise training on body mass index,lipid and lipoprotien profiles The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study)
125	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro
	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study)
126	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study) The Effect of Immersion in Slurry Water or top water on some properties of gypsum products
126	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study)
126 127	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study) The Effect of Immersion in Slurry Water or top water on some properties of gypsum products Relation of prostate specific Antigen and Histopathology of prostate biopsy
126 127	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study) The Effect of Immersion in Slurry Water or top water on some properties of gypsum products Relation of prostate specific Antigen and Histopathology of prostate biopsy Pharmacological and antimicrobial studies on aqueous extract of salixbabylonica
126 127 128	The Effect of Two Demineralizing Agents on Apical Sealing of Retrograde filling Materials (In vitro Study) The Effect of Immersion in Slurry Water or top water on some properties of gypsum products Relation of prostate specific Antigen and Histopathology of prostate biopsy

130	Dental erosion among 11-12 Years old schoolchildren in erbil city
131	Ultrasonographic measurement of normal spelenic parameters in Erbil population
101	compressive strength and surface rurface roughness of die stone casts after repeated disinfection
132	with sodium hypochlorite solution
102	Assessment of the wear resistance and surface roughness of different composites aftar mechanical
133	brushing
	Pain and swelling after lower 3rd molar surgery (acomparative study between three methods of
	wound closure)
134	
	Oral health status treatment needs and dentofacial anomlies among (5-16)Years patients with B-
135	Thalassemia major syndrome in comparis on to healthy school chlidren in Erbil city
	Thesis infection after total hip arthroplasty
130	
127	Mode of delivery and perinatal mortalivery in primigravida with breech preseentation
137	Pain and swelling after lower 3rd molar surgery (acomparative study between three methods of
120	wound closure)
120	
120	Evaluation of tensile strength and microhardness of two nickel - chromium based casting alloys with the addition of different ratios of
140	recasted alloy using oxy acetylene flame casting techmique Evaluation of depth of cure and surface hardness of compositeresin poltmerized by halogen and LED
1 / 1	
141	light curing units
140	Early symplications of lanaroscopic cholosystestemy at rizgary teaching bespital
	Early cumplications of laparoscopic cholecystectomy at rizgary teaching hospital
143	Analysis of anorectal conditions in erbil teaching hospital in year Oral heath stotus treatment need dental heath knowledge and behavior among 12 years old school
111	students in dohuk governorate
144	Digtal panoramic rodiographic study of the mental and the mandibular foramina locations ithe (23-
145	25)years old grup patients
145	Pattern of different types of viral wartin patients attending the depatment of dermatology and
146	
	venerology in rizgary teaching hospital in Erbil
	Screening for open angle glaucoma among agroup of patients attended ophthalmic department of
